Selected Online Assistive Technology Vendors

Bulletin

Selected Online Assistive Technology Vendors

Bulletin

DRNJ is a private, non-profit, consumer-directed organization which serves as New Jersey's federally funded protection and advocacy system for persons with disabilities.

Selected Online Assistive Technology Vendors

Individuals with disabilities throughout New Jersey use a wide variety of assistive technology (AT) in their homes, schools, workplaces, and in the community. A number of different vendors provide an array of different devices to help people with different types of disabilities work, learn, read, and participate in many different sorts of activities. Many of these vendors provide websites with detailed information about various assistive technology devices.

This bulletin lists several online vendors who provide AT devices, as well as a telephone number to contact each vendor to request catalogues or product information. This list does not include every possible vendor. Disability Rights New Jersey (DRNJ) does not endorse any specific vendor. DRNJ encourages individuals to shop around to find the best device for them at the most reasonable price. Additionally, DRNJ encourages individuals to utilize the National Public Website on Assistive Technology, at <http://assistivetech.net/>, which provides a more comprehensive listing of vendors.

Vendors of Devices for Assistance with Daily Living

- **Able-Net** - <http://www.ablenetinc.com/> - (800) 322-0956
Offers augmentative communication devices, switches, learning technology, and computer aids.
